Gratis haarsny vir talle

Die Helderberg-tak van die National Coloured Congress (NCC) het Maandag en Dinsdag (13 en 14 Januarie) 'n terug-skool-toe-haarsnysessie in Broadlandspark, Strand, aangebied. Die program, waarin vrywilligers die seuns in die gemeenskap se hare gesny het, was daarop gemik om seker te maak dat die leerders netjies lyk vir die eerste dag terug by die skool. Volgens die NCC wil hulle verseker dat kinders wat nie die middele het nie, steeds selfvertroue kan hê en netjies lyk. Foto's: Barend J. Williams

Die haarsnysessie is georganiseer deur (van links) Eben Muller, die streekorganiseerder van die NCC, proporsionele raadslid Felicia Solomons (subraad 8), Evolino Simons, die NCC-substreekkoördineerder vir die Helderberg, en Fayrooz Nefat.

Juffrou en leerders ná jare weer byeen

'n Familie-reünie in Strand het 'n spesiale geleentheid geskep toe die 93-jarige oudonderwyseres Lesley de Kock met drie van haar oudleerders herenig is. Die Botha- en Duminy-familie het op Saterdag 28 Desember in die braaisaal van die Suiderstrand NG kerk byeengekom om familiebande te versterk. De Kock, 'n inwoner van Strand, is spesiaal na die geleentheid genooi. Sy het haar onderwysloopbaan in 1951 by Stanford Sekondêre Laerskool (nou die Laerskool Okkie Smuts) in die Overberg begin. Johanna Botha ('n nooi Duminy) was een van haar eerste leerders in die destydse standerd 5 (nou gr. 7) en het saam met haar susters, Rita Thiart en Isabel Volschenk ('n nooi Duminy), die spesiale ontmoeting gereël. "Juffrou De Kock was baie gewild onder ons leerders. Sy was gemoedelik en aangenaam – iets wat sy steeds is," het Botha gesê. De Kock het gesê die reünie het haar jaar gemaak. "Dit was 'n gelukkige oomblik om my drie oudleerders weer te sien." By die spesiale geleentheid (van links agter) is Johanna Botha (84), Rita Thiart (83) en Isabel Volschenk (80) met hul oudonderwyser Lesley de Kock (voor).

New support groups started

In support of Mental Health and Wellness, the South African Depression and Anxiety Group (Sadag) is launching two new support groups tailored to different needs.

The groups will provide a safe space for individuals living with post-traumatic stress and those coping with the challenges of skin conditions and mental wellness respectively.

Each group is focused on connection, understanding and resilience, offering members a chance to share their experiences and find support.

With these initiatives Sadag continues to expand its commitment to creating inclusive and supportive mental-health services.

The online support group for those suffering from skin conditions launches today (Wednesday 15 January) at 18:00 and is open to anyone battling a skin condition.

The online group for people suffering from post-traumatic stress will be launched on Saturday 18 January at 08:00.

Again, it is open to anyone battling the struggles of post-traumatic stress.

LEGAL NOTICE

ZUTARI IMPACT. ENGINEERED.

PUBLIC PARTICIPATION PROCESS: MACASSAR WASTEWATER TREATMENT WORKS, CAPACITY EXTENSION AND ASSOCIATED INFRASTRUCTURE REFURBISHMENT, WESTERN CAPE

Project Title: Macassar Wastewater Treatment Works, Capacity Extension and Associated Infrastructure Refurbishment, City of Cape Town, Western Cape

Project Proposal: On the 07 July 2016, the Department of Environmental Affairs and Development Planning issued an Environmental Authorisation (EA) 16/3/1/1/A3/39/2078/14 to the City of Cape Town approving the proposed upgrade and expansion of the Macassar Wastewater Treatment Works (WWTW) and associated infrastructure. However, due to the time that has passed since the approval in 2016, new design engineers have been appointed to finalise the detailed design. The design engineers have identified alternative technology options that will enable the works to run more efficiently and improve the quality of the effluent being discharged to the estuary.

The proposed revision to the design upgrades will require the clearance of more than 1ha of indigenous vegetation, which includes Endangered Cape Flats Dune Strandveld vegetation. Therefore, Listing Notice 1, Activity 27 and Listing Notice 3 Activity 12 is being applied for.

Legal Framework: To seek environmental authorisation, a Basic Assessment Reporting (BAR) process for the proposed works is required in terms of the National Environment Management Act (NEMA, Act No. 107 of 1998, as amended) and the 2014 Environmental Impact Assessment (EIA) Regulations (as amended). An Application for Environmental Authorisation (EA) has been submitted to the Western Cape Department of Environmental Affairs and Development Planning (DEA&DP).
