KEY QUALIFICATIONS

Zinzi is an environmental consultant at Zutari. She has experience in the compilation of environmental impact assessment reports (EIAs), basic assessment reports (BARs) and environmental screening reports for the erection of Telecommunication Masts. She has also assisted in undertaking public participation processes prior to the erection of telecommunication masts.

She has previous working experience in geo-informatics and geographic information systems (GIS). She has two years of experience working with GIS, which she has gained whilst working on projects for the private sector. Zinzi has specialised in spatial analysis, data processing and mapping while her technical responsibilities include inter alia the evaluation of data, digitising, editing and converting spatial data and non-spatial data from various formats and manipulating data in Esri ArcMap, GeoMedia and QGIS.

RELEVANT EXPERIENCE

- ***New Pacaltsdorp Reservoir, Tower and Pump Station***

03/2022 to 06/2024: GIS Consultant

Responsible for:

- Producing maps.

To address the inadequate security of potable water supply in Pacaltsdorp (West), George Municipality required the construction of a new reservoir and pumpstation. The scope of works entails the management and design for the new 2.5 Ml reinforced concrete reservoir, tower, pump station and interconnecting pipework as well as the design of a new supply main should the existing 315mm Ø supply main be found inadequate. This also includes the management of the documentation and procurement of contractor/s for the civil, mechanical and electrical works, contract administration and site supervision.

- ***Environmental Impact Assessment (EIA) and Water Use Licence Application (WULA) for the Proposed Bierspruit Opencast Development at the Amandelbult Mine Complex***

03/2019 to 06/2024: Environmental Consultant

Responsible for:

- Assisting with coordinating the public participation process and stakeholder engagement.

To conduct an environmental impact assessment and water use licence application for the proposed Bierspruit Opencast development at the Amandelbult mine complex near Thabazimbi in the Limpopo Province.

- **Waste Management Support**

03/2019 to 06/2024: Environmental Compliance Officer

Responsible for:

- Conducting an environmental assessment and environmental management programme (EMPr) audit for the Mogalakwena Fuel Depot.

To assess the waste management practices at Mogalakwena Mine to make recommendations for improvement. This included developing a Waste Management Plan (WMP); conducting site assessments for both internal and external waste facilities including contractors; developing a waste inventory as well as developing and conducting training for four levels within the operations for Mogalakwena Complex (MC)

- **Water Feasibility Study for a Combined Treatment Plant at Arnot Coal Mine Closed Colliery**

01/2020 to 10/2022: Environmental Consultant

Responsible for:

- Compilation of the DW901, DW902, and Section 21(A) Water Use Licence Applications (WULAs) on the Electronic Water Use Licence Application and Authorisation System (e-WULAAS).

To assess the waste management practices at Mogalakwena Mine to make recommendations for improvement. This included developing a Waste Management Plan (WMP); conducting site assessments for both internal and external waste facilities including contractors; developing a waste inventory as well as developing and conducting training for four levels within the operations for Mogalakwena Complex (MC)
